

Improving lives together

Highly Specialised Personality Disorder Service

**Cygnnet Maple House,
Nottinghamshire**

Accepting
referrals
now

Cygnnet Maple House is our 16 bed highly specialised service providing assessment, treatment and rehabilitation for women with personality disorder and complex needs.

Rehabilitation is provided in a therapeutic setting, with a level of security matched to individual needs. The aim of the treatment, rehabilitation and re-socialisation programme is to prepare the individuals in our care either for transfer to an environment of lesser security, or for a life in the community.

We have a substantive multi-disciplinary team (MDT) comprising of a hospital manager, clinical manager, consultant psychiatrist, specialty doctor, psychologist, assistant psychologist, occupational therapist, therapy co-ordinator and nursing and support workers. We work closely with the local community, including dieticians and primary care.

We promote physical health, wellbeing and meaningful occupation as part of our treatment programme, using strong community links to facilitate individualised wellbeing plans.

Female

18+ years

16 beds

Our service user profile:

- > Women, aged 18+ years

- > May have experienced regular placement breakdowns
- > Sustained relational and social functioning problems
- > Forensic or non-forensic history
- > Capacity to engage
- > Referrals accepted from Tiers 1-4

Our approach

We adopt an integrated modular approach to treatment for women with a diagnosis of personality disorder, accounting for diagnostic differences, NICE guidelines and the work of Livesley (2004).

With a focus on interpersonal relationships, we use individual formulation to deliver a personalised and integrated combination of psychotherapeutic and pharmacological interventions. These can include:

- > Dialectical Behaviour Therapy (DBT)
- > Cognitive Behavioural Therapy (CBT)
- > Compassion Focused Therapy (CFT)
- > Eye Movement Desensitisation and Reprocessing (EMDR)
- > Schema Focused Therapy (SFT)

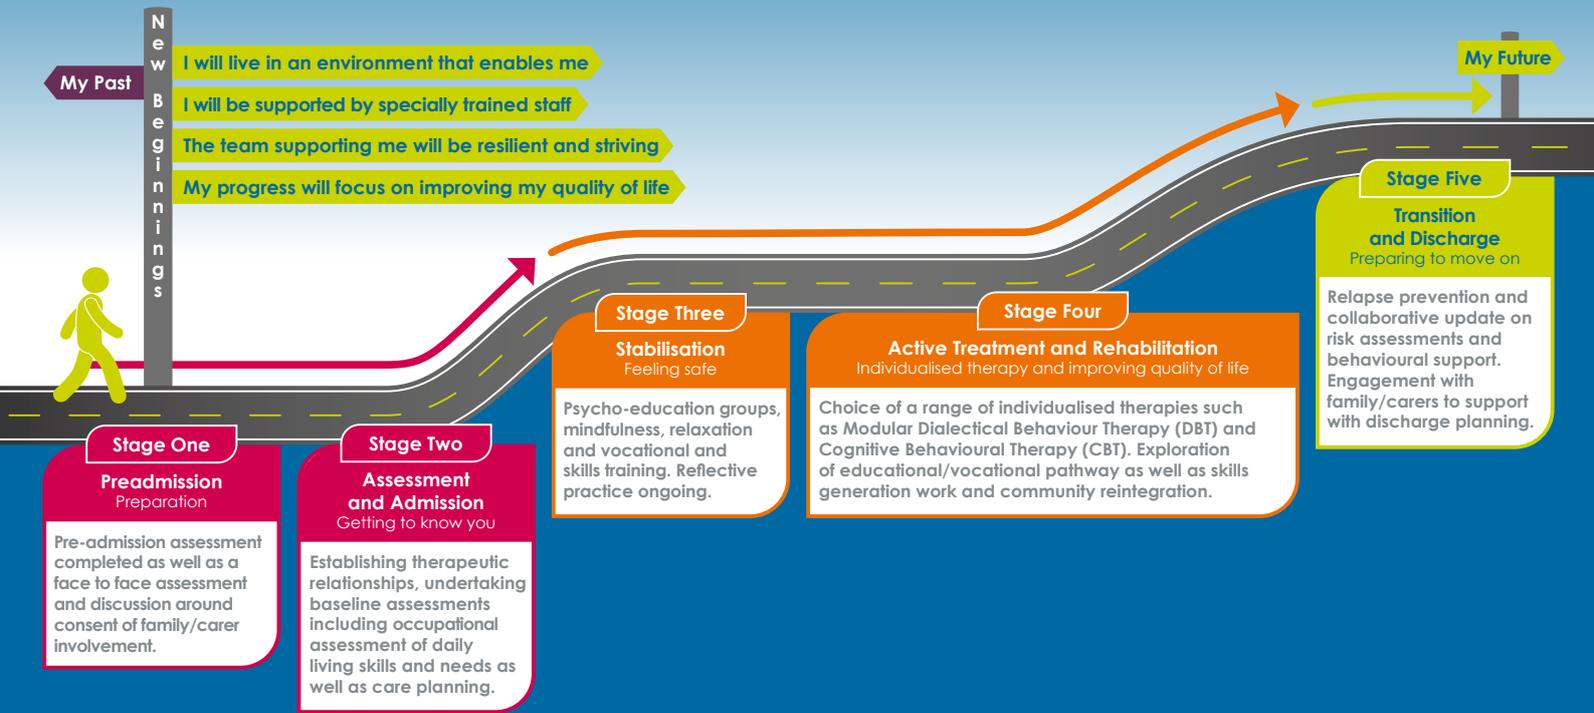

Our aim is to address the core features of personality disorder: emotional regulation, interpersonal functioning, and self-identity and to prepare the women in our care for a transition to life back in the community.

Our facilities:

- > En-suite bedrooms
- > Dining room
- > Therapy kitchen
- > Laundry room
- > Communal lounge / TV room
- > Extensive garden
- > Sensory room
- > Treatment room
