Albert Ward is our 9 bed male PICU at Cygnet Victoria House, which accepts emergency and crisis admissions. Referrals will come to us from all areas, including acute and prison services. Our aim is a short, rapid intervention to help service users regain a sense of control and order in their lives, so they can move to a less restrictive care setting and ultimately return home.

The service provides expert, intensive, short-term, individualised care for those detained under the Mental Health Act. Service users will present with increased risks that require them to be assessed and treated in a PICU environment.

Our team works closely and collaboratively with individuals in our care, their families and the referrer to provide a seamless pathway from referral to discharge. Our approach is recovery focused and supported by comprehensive multi-disciplinary teams, contributing to shorter lengths of stay.
